CARDS OF THANKS
Mr. and Mrs. C. D. Smiley desire to ex-
press through the Gazette-News their
heartfelt thanks to those who extended
so much kind assistance and tender sym-
pathy during the trials and bereavement
attending the illness and death of their
son, Florence Smiley.
Mrs. Adam Schantz, on behalf of herself
and family, takes this method of express-
ing, as far as mere words can do so, the
deep sense of appreciation and grateful
remembrance in which they cherish the
many tokens of kindly sympathy from
the people of Daytona over the death of
her late husband, Adam Schantz. The
beautiful floral offerings and many other
sweet and delicate tokens of good will,
were indeed a soothing balm to them in
their inexpressible grief.

HOW THE DOANE FAMILY
CAME TO LOCATE HERE
The importance of advertising a town
cannot be too often emphasized, and the
Gazette-News respectfully calls the atten-
tion of the business men of Daytona to an
instance where the fame of this city's
mannifold beauties and rare advantages
butted in, so to speak, upon a good thing
scheduled for Rockledge.
S. P. Doane, a capitalist of Providence,
R. I., decided to buy a winter home some
where on the East Coast of Florida. He
had spent two winters in the State—one
of them at Rockledge, which he rather
liked. He had never visited Daytona,
and only knew of it in a general way.
Early last winter, with his wife, three
daughters and a younger brother, Mr.
Doane started from Providence to Rock-
ledge, fully determined to buy a home on
his arrival there.
Reaching Jacksonville, he took passage
on St. Johns steamer for Rockledge via
Sanford. On the boat he met a gentle-
man who knew the whole East Coast
country, though he lived in Chicago.
When the gentleman learned that Mr.
Doane contemplated buying a home in
Florida, he advised him to come to Day-
tona before buying elsewhere.
"Daytona is the beauty spot of Florida
and the ideal town for a winter home,"
said the Chicago man to Mr. Doane, "and
whatever you do, don't buy elsewhere
until you see it."
Mr. Doane says that he was impressed
with the man's earnestness, and though
resolved to buy a certain piece of property
at Rockledge, he concluded to see Day-
tona first. He went on to Rockledge and
dropped his family there and came here.
He looked the place over, and came to
the conclusion that "the half had never
yet been told," so far as his impressions
were concerned.
To make a long story short, Mr. Doane
did not even return to Rockledge. He
rented one of the J. G. Brown cottages
and telegraphed his family to join him
here at once, and here they remained all
the winter.
Last week the Doanes bought property
here of J. G. Brown, S. P. Doane bought
a corner of Ridgewood avenue and Cedar
street, 110 x 250 feet, and Cullen Doane
bought 120 feet front on Cedar street.
They will build on this property before
the next winter season opens.
The story of this transaction teaches
the importance of advertising—and the
people should profit by it. The Gazette-
News will do its part, and invites the co-
operation of every progressive citizen in
Daytona.

Vernet at the Sea.
Vernet, the celebrated painter of sea
pieces, eager in the study of nature,
made several long voyages in his young-
er days in order to observe the various
scenes which the changeable ele-
ments exhibited. In one of these ex-
ursions undertaken merely for the love of
the art a most violent gale of wind
arose, when Vernet, without attending
to the peril with which he was sur-
rounded, desired one of the sailors to
lash him fast to some of the rigging.
Soon after this request was granted
the storm increased, attended with
thunder and lightning and with every
circumstance that could add to the hor-
ror of the scene, and consternation and
terror sat on every countenance, but
in the young painter every emotion
was lost in that of admiration, which
he every now and then exclaimed in
the most enthusiastic terms, "Good
heavens, what a noble scene!"
True Blue.
The expression "true blue," which we
hear so often, has not even an English
percentage, but is said to have been a
Spanish saying, which meant that the
blood that filled the veins of the aris-
tocracy of Spain was blue in color,
while that of inferior mortals was
more or less black, and the proverb
that "true blue will never stain," in-
stead of meaning, as it is generally sup-
posed, that "a noble heart will never
disgrace itself," actually refers to the
"blue aprons" worn by butchers on ac-
count of their not showing bloodstains
a far jump this from the blue blood
of the haughty Spanish aristocrat to
the humble apron of the butcher's boy.
—London Lady.
Whales and Bluefish.
The ancient custom required
to maintain the life of a whale is
something which almost passes human
imagination. As many as fourteen
seals have been taken from the stom-
ach of a sperm whale, says Nature,
and his ordinary diet consists of squids,
which often weigh several tons. The
whalebone whale simply opens his
mouth and takes in jellyfish by the
wagon load. The bluefish also has an
enormous appetite, and it has been es-
timated that it requires 10,000,000,000
sardines to feed 1,000,000,000 bluefish
every summer.
A Good Deed.
Mother (severely). Johnny, where is
that piece of cake I left here when I
went out?
Johnny—I gave it to a hungry little
boy, mamma, and, oh, he was so glad
to get it!
Mother—Come to my arms, you dear,
dear angel. Who was the little boy?
Johnny—Me.
Instinctive Fear in Birds.
The instinctive fear of death mani-
fested by birds is shown by the follow-
ing: A canary died, was buried, the
nesting place broken up, the surviving
mate removed to a new cage and the
old cage thoroughly cleaned and put
aside till the following spring. Never,
however, could any bird afterward en-
dure being placed in that cage. They
fought and struggled to get out, and if
all in vain their efforts they moped,
huddling close together, thoroughly un-
happy, refusing to be comforted by any
amount of sunshine, companionship or
dainty food. The experiment was tried
with foreign birds that had not been in
the house when the death occurred and
could not therefore have known of the
event by observation. But the result
was always the same. For the future
that cage was haunted.—Popular Sci-
ence.

Women as Well as Men
Are Made Miserable by
Kidney Trouble.
Kidney trouble preys upon the mind, dis-
courages and lessens ambition; beauty, vigor
and cheerfulness soon disappear when the kid-
neys are out of order
or diseased.
Kidney trouble has
become so prevalent
that it is not uncommon
for a child to be born
afflicted with weak kid-
neys. If the child ur-
ines too often, if the
urine scalds the flesh or if when the child
reaches an age when it should be able to
control the passage, it is yet afflicted with
bed-wetting, depend upon it, the cause of
the difficulty is kidney trouble, and the first
step should be towards the treatment of
these important organs. This unpleasant
trouble is due to a diseased condition of
the kidneys and bladder and not to a habit
most people suppose.
Women as well as men are made mis-
erable with kidney and bladder trouble,
and both need the same great remedy.
The mild and the immediate effect of
Swamp-Root is soon realized. It is sold
by druggists, in fifty-
cent and one dollar
sizes. You may have a
sample bottle by mail
free, also pamphlet tell-
ing all about it, including many of the
thousands of testimonial letters received
from sufferers cured. In writing Dr. Kilmer
& Co., Binghamton, N. Y., be sure and
mention this paper.
Don't make any mistake, but remember
the name, Swamp-Root, Dr. Kilmer's
Swamp-Root, and the address, Bingham-
ton, N. Y., on every bottle.
"CLEARING UP DAY"
The Pinewood Cemetery Improvement
Association met Tuesday afternoon at the
residence of Mrs. Harroun, and
considerable business was transacted.
The 21st instant was decided upon as
"Clearing Day," and it is hoped by the
association that the citizens of the entire
communities interested in the cemetery
will attend in person or send representa-
tives, as it is desired to improve the ap-
pearance of the cemetery as much as pos-
sible before Decoration Day, which comes
on May 30, and will be specially observed
here. The stone wall of the cemetery is
almost completed, and the iron double
gates for the three driveways have been
purchased. One of these gates was gen-
erously donated by E. W. Greene, of
Daytona.
The next effort of the association will
be directed toward procuring a good sup-
ply of water for the cemetery.
Any person interested in the improve-
ment of the cemetery will be welcomed to
membership in the association.
The next meeting of the Association is
to take place Tuesday, June 1st, at the
residence of Mrs. Harroun, in Goodall.
